TOOLING

DESIGN CATALOGUE

MOULDING MATTERS

The quality of your tool influences the quality of your final product. For a high quality product, you need high quality equipment, and even better quality care.

Sourcing your mould through Rotadyne means having complete creative freedom and control over your mould, from quality to design. It also means you can trust that your tooling receives our TLC as part of our complimentary Peace of Mind service.

PEACE OF MIND

PROTECTED, UNDER COVER STORAGE

Sheltered from the elements, safe in their designated spot on our factory shelf.

QUALITY CHECKS AND ASSESSMENTS

Detecting scratches and defects, preventative strategies to avoid damage.

FREQUENT AND CONSISTENT GENERAL SERVICING

Fixing up any blemishes which can worsen over time and impact product quality.

MINOR TOOLING REPAIRS

Necessary repairs in the case of minor damage or an unavoidable accident.

PREMIUM TOOLS

CNC ALUMINUM

Even if your product is new, stylish and perfectly manufactured, it's no use if it's not functional.

Rotadyne runs trials, tests, and use our industry insights and experience to ensure your product is not only manufacturable, but practical for its intended users once it hits the shelves.

Depending on your industry, you likely have particular regulations involving health, safety, or ethics which are

CAST ALUMINUM
